May 29

Out to east 7 miles & set  
strawberry patches & one  
very large saw 10 jave  
patches were 30

Arranged back from north

light from Moko Henan  
is very plain as  
darkness falls & comes up  
begins to circle lights from  
water along cliffs at  
darkness falls weak light  
on the chicken 15.

New Zealand  
Jan 14, 1926  
Hen & Chicken Is

Casted boat after supper  
3 or 4 schools fish footer  
More long thick on top of  
water pursued by big  
fish small gulls +  
gannia shearwaters light  
on edge of them +  
swim around with fish  
shot several times +  
hurt 3. big fish took one  
lead on floating.

Can keep at dark circles  
around near island  
mile off before sunset  
gradually approaches  
shore as darkness comes  
shags swim into rocks  
& seek shelter there when  
wounded

June 16  
rainy last few days & didn't  
get over to Bass to look for  
salts but natives on Vining  
Island said none remained  
now & cane field  
bulbuls & minahs common

camera

B P bill

insurance from Capt Port  
list from Boyd  
want photos

June 81

Out to wireless station in  
mangroves there saw 3 wry  
longtail paroquets very said  
rooted in dead tree stub  
so feet high one bird came  
over & saw 3 others in dead  
tree farther in mangroves  
out next morn & single  
& pair of birds flew toward  
tree stump lit also top of  
mangrove tree. Shot one  
as flying past hang about  
over mangroves  
dozen Java sparrows sitting on  
perch by rice field shot -  
all young. Little Taly  
3 adults flew up into  
coconut leaf & #12 got  
all 3. falling into ricefield  
strawberry bush single pair  
& families more common than  
Forest birds

Indians never set around  
Ba stones as while at home  
about saloons. lot of silver  
in Indian women houses  
of grass & rice straw as  
well as galvanized iron some  
time, 14,000 000 feet lumber  
Under Tiji Kauri lumber  
less least says D.C.(Caldwell)  
20 years since whistling  
ducks seen by several old timers  
duck of the rock translation  
of duck hawk name.  
Matisat Saw Saw say it  
used at dark go out in reefs  
to fish. nest near there

corn does well & sugar as  
well as rice which has  
heavy heads, Indian  
School, dozen children  
with slates & home covered  
books all Indians & Teachers  
same. benches & table  
in galvanized iron  
building about  $10 \times 20$  ft.  
near native houses. only few  
rods from children houses  
goats & cattle about  
houses few dogs

120 inches rain 4 months  
45° in March at Mandaravata  
cuckoo in fence post & hotel  
broadbills common  
whiterays & shrikes wood  
swallows but minahs &  
bulbuls commonest  
minahs on goat & cattle backs

sugar cane cut before  
ript, stalks dropped into  
furrow & Indian cuts stalk  
into pieces a foot long as it  
lies in furrow

Mauritius peas used for  
green manuring crop  
10 months or so between  
cane growing & return to  
cane. rice ripening  
cut with sickle in bundles  
& these are taken to central  
spot few rods & flailed  
over small table with  
small sticks & crevices between.  
no galling underneath  
under roof is log with  
pointed block at one end  
on a pivot which works up  
& down & women with  
brush & hands keep rice  
into center to husk rapidly

May 19 to Ba.

Cane & rice fields  
flocks of minahs &  
many bulbuls along  
wall swallows in  
telephone wire wood  
swallows sing along  
Tavua road  
swift common over  
cane fields  
thrushes sing good weather  
also other birds -  
cosmos plants yield  
along road thick &  
barren places as we  
go thru patches Ba & Tavua  
road

broad of young, fainter pinches  
along roadsides. see but,  
red breast parrot but plenty  
yellow ones

May 14

But Ba Road few miles  
rainy at times  
parrot taken at Pny  
swaying in tree top  
where neck is bent  
back on shoulders to look  
straight up thru the 40 ft  
tree & the leaf & blossom  
clump 28 feet above

May 18

Saw young plumed  
deck bens along  
stream with flock  
dozen chili pigeons  
pair small parrot  
also flew over  
down Suwa road 5 miles

11+12+13

Out along Ba road +  
get couple paroquets on 13  
miss a couple 12 & see none  
on 11<sup>th</sup> got a K. Finch on 13  
overhead when I called up  
a fainter or two.

Yellowbellies seem to have  
young still feeding as  
hear them calling  
got 6 longbills 13<sup>th</sup> +  
none in other days a  
woodbill fair seen on  
edge of forest at 25 os but  
hear none in forest where  
cay fly etc occur. wood  
swallows always nicely  
in low trees like whiteeyes  
sitting alone in dead  
tree while misty drizzle  
falls. Rain every day  
2 days in 13 without rain

tree tops, 3 different trees  
100 yards apart have found  
them. can tell by sharp  
tails from the warblers  
3, 4, or 5 of the latter  
feeding in leaves & blossoms  
to one of the paroquets  
small paroquets mouse-like  
squeaking while feeding  
lower voiced than large  
ones but some calls  
am not sure which  
bird is making. all  
feeding is above one  
series of small trees &  
can see but small clump at  
end of ~~trees~~ tree  
holes in small trees.  
foliage ~~Klenschmid~~ Finch  
bird of heavy forest tho.  
9 May  
got one prettied out head  
in forest also

May 5

Out & rainy & wet during day. Found a tree where paroquets feeding. few common & got couple small no others seen. warblers feeding in same tree with both paroquets

May 6

Morning clear but rain P.M. got few birds

May 7

No rain during day thrushes sing some chile pigeons feed in bushes along roadside. See 3 or 4 daily. got 2 more small paroquets

May 8

Shower in P.M. got 2 more small paroquets have to pick them out of

May 3 Sunday.  
Rainy all day & did  
not leave house

May 4.

Foggy & rainy all day  
several heavy showers  
down 4 miles on Suva  
trunk. 2 kingfishers young  
on Elephant wire in small  
village. small flock  
yelloweyes, no red parrot  
seen to recognize but  
yellow plenty ful. longbills  
call often but keeps out of  
sight. Couple thrushes  
singing, others sing most  
many heard. dozen or less  
minahs about station  
& bulbuls a  $\frac{1}{2}$  dozen & so  
seen. small flock of  
golden doves along road  
I'd heard sometimes

May 2

Out in rain - drizzling &  
rain all day. Thrushes  
common but very only got  
2. Saw 1 Klein's chmidt finch  
got 1 yesterday & saw another  
in forest come to calling  
sometimes.

- gray fantail's not seen

Cards with promising  
from Taobea not arrived  
no spuds nor rice here  
10 miles and 3 day to make  
trip cart over side of  
road once, mud galore  
3 inches or so rain  
tonight after dark

Nadarivale May 1, 1925.  
arrived last night &  
rainy today all day. Out  
at 8.30 till 4 P. M. & got  
few birds. Heard a paroquet  
or two singing & saw bird  
high in tree. Shot it &  
picked up the longtail  
red chested paroquet. Shot.  
3 more birds in same high  
tree before picking me up  
& they proved to be nobles  
& one common paroquet.  
The other small paroquet  
flew down too close to shoot  
when I picked up the  
winged one but flew off  
before I could step back  
a few feet. Thrushes &  
longbills common. Wrens  
frequent; one wood swallow  
swifts several. also shrikes  
both pigeons. kingfishers seen  
3.5 inches rain March  
15. in April

Suna April 24, 1925-

Out pipeline to cut take  
and hear several golden  
doves along river. See small  
flock of strawberry finches  
feeding along trail & in  
a patch of high thick grass  
get male. Swift common  
several barkay pigeons seen  
a Chili pigeon flew across  
native village & lit close by  
12 bulbuls seen in 1 flock  
common in flat but  
seldom in forest  
thrushes heard but seldom  
seen lost 2 shot at

April 26 Sunday  
At Martin's house in 5 P.M.  
4 green paroquets lit in  
tree in gulch. flew away  
& returned in 20 minutes if  
larger than common, long tail  
16 seen yesterday.

Niue Secon

April 23, 1925

In P.M. up pipeline  
+ saw parrots, paroquets,  
+ heard couple thrushes + were  
as well as kekorus.

swallows common and  
bulbuls in flocks along  
river yg birds some  
many only 4 years have  
bulbuls been around  
here tho introduced  
at Sigatoka many some  
years ago Eat mulberry  
in town + Cantana  
hawk flying about over flat  
near mts. yg? Kingfisher  
taking not many riverbeds  
whiterays common  
+ when seen in flat base  
of mts where tide runs in
